WAXON's Core Colors | 2023

Low-impact Dye Colors from WAXON Studio

Exact shades will shift from dye bath to dye bath. Expect lighter & darker areas of color. Hues on screen are approximate! Thank you for embracing the nature of hand-dyed fabrics.

Amethyst
a deep berry,
dark pink

Oxblood
our darkest red

Burgundy
maroon, wine

Rust
a brown/brick
red combo

Golden Brown
light, orangey
brown

Sorbet
a grown-up
orange

Amber
a warm wheat

Sungold
our deep
golden yellow

Avocado
the perfect
grass green

Moss
hunter, pine

Cayman
a classic all-
seasons teal

Sky
wish medium

truest navy

Midnight Blue
a twilight,
warm blue

Lavender
our light warm
purple

Nightshade
a dark warm
purple

Eggplant
our cool-tone
purple

Raven
as close to black
as we can get-
very dark
charcoal

Timberwolf
grey formulated
with warm
undertones

The Hand-dyer's Ethos:

Dyeing is an art, not a science. We expect and celebrate variations in hues from batch to batch. Colors on screen are never an exact replica of colors on real fabrics.

Here are example swatches of how our core colors start, and how they split over ice.

WAXON's 24 Core Colors for Ice Dyeing- 2023

Amethyst

Burgundy

Oxblood

Indigo

**Midnight
Blue**

Lavender

**Deep
Purple**

Nightshade

Eggplant

**Truffle
Brown**

Raven

Hiring WAXON's dyeing services

For new and returning clients | 2023

Prices subject to change; estimates can vary depending on project

Important info:

- ALL dye jobs include estimate & consultation
- New product sampling rates begin @ \$20/pp (if samples are needed)
- Prices listed here are exclusive of cost of blanks/fabric
- All shipping costs will be charged to client (we get good rates!)
- WAXON tags are sewn into each garment unless otherwise directed
- we ask that you please tag or link to @waxonstudio/www.waxonstudio.com when listing our dyed items in your shop

ALL Dye jobs include:

- pre-wash of all items
 - two post-dye washouts
 - drying & folding services
-

Low-water immersion

Our easiest & most cost-effective dye technique. Dye lots are produced in batches and cannot be replicated exactly from dye lot to dye lot. Number of pieces in each dye lot depends on size & thickness of garment. Great for dyeing yardage! No tying, no ice, no bottles.

- Choose 1 color- stock or custom
- all-over areas of lighter & darker hues are created organically in the dye bath
- excellent choice for background of garments with screen printed designs
- works on thick *or* thin fabrics

Garments (t-shirt weight or thinner):

\$30/pp 1-9 garments

\$16/pp 10-20 garments

\$13/pp 21-50 garments

\$10/pp for 51+ garments

Hoodies/sweatpants/heavyweight items add \$5/pp

Yardage:

\$25/yd for light to medium weight fabrics

Add \$5/yd for heavier weight fabrics

Minimum 2 yards per dye bath

Ice Dyeing

Each color splits into various and beautiful results. Works best with an all-over scrunch design, shown here (we will charge more for tied/folded designs, as they take lots more time and effort). Gorgeous watercolor-like effects that vary from garment to garment and across pieces of fabric.

- Choose 1 or multiple colors
- go subtle or wild!
- great for achieving an updated, modern "tie dye" look
- works best on light to medium weight fabrics

Garments (t-shirt weight or thinner):

\$40/pp 1-9 garments

\$25/pp 10-20 garments

\$20/pp 21-50 garments

\$15/pp for 51+ garments

Add \$10/pp for hoodies/sweatpants/heavyweight or large items

Yardage:

\$30/yd for light to medium weight fabrics

Minimum 1 yard

Tie Dyeing

The classic look, totally customized for you and your brand. This form of dyeing actually takes the longest, uses the most dye, and requires the most hands-on time, especially with specific/complex folding requests. *We recommend starting with a classic spiral.* Sampling is required for custom colors, as we can't know what their final shade will be until after the final wash & dry.

- Choose from our 24 core colors or have us mix a custom shade
- go subtle or wild!
- works best on light to medium weight fabrics

Garments (t-shirt weight or thinner), spiral 1-4 colors:

\$40/pp 1-9 garments

\$25/pp 10-20 garments

\$22/pp 21-50 garments

\$20/pp for 51+ garments

Add \$10/pp for hoodies/sweatpants/heavyweight or large items

Pricing varies for tie-dye depending on:

- pattern desired
- number of colors
- garment style (i.e., long sleeve, hooded)

Yardage:

\$30/yd for light to medium weight fabrics. Minimum 1 yard.

Batik

Imagine your logo, your team, your company's name hand rendered in the incredible style of batik. We work with pure local beeswax to design your image & lettering in layers of wax and dye. Every single item is done one by one, with the hallmark batik crackle so ubiquitous to the craft. So hard to find these days in this digital design world!

- Batik is incredibly time consuming, but worth it for those who love it
- Garments must be sewn with all cotton thread, no synthetics at all in fabrics or stitching
- designs that work: lines, shapes, text, icons (no shading or sketched looks)
- talk with us about your idea to get an idea of what we can do

Pricing varies depending on complexity of design, # of pieces, etc.

We don't do *any* batiks for less than \$30/pp--it's just not financially viable.

Let's talk about how to find a solution for you and for us!

E.G., we can batik your logo once and license it for printing on merchandise.

Or do a batik design simple enough to be replicated by screenprinters to get an affordable batik look.

We want to work with you.

Our document's purpose is to help navigate the tricky world of pricing for handmade work. In this modern era of fast fashion and mass production, we know our prices represent real people practicing dyecraft by hand. Our rates must support the time and labor it takes to create our work and to ensure that we "make as much" as our wholesale clients do when reselling our work.

Feedback and questions welcome:
